What's in the box?

Chair Body

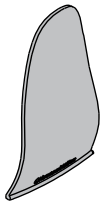

Base

Wrench

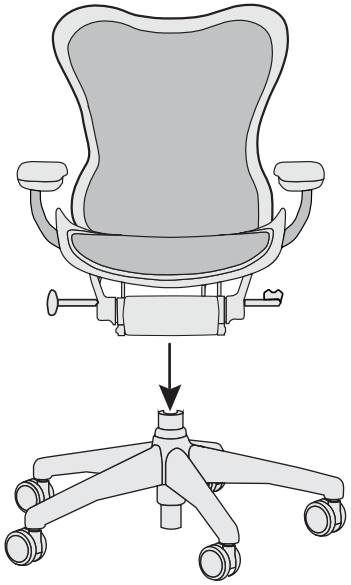

Access Cover

M10 Bolts (2)

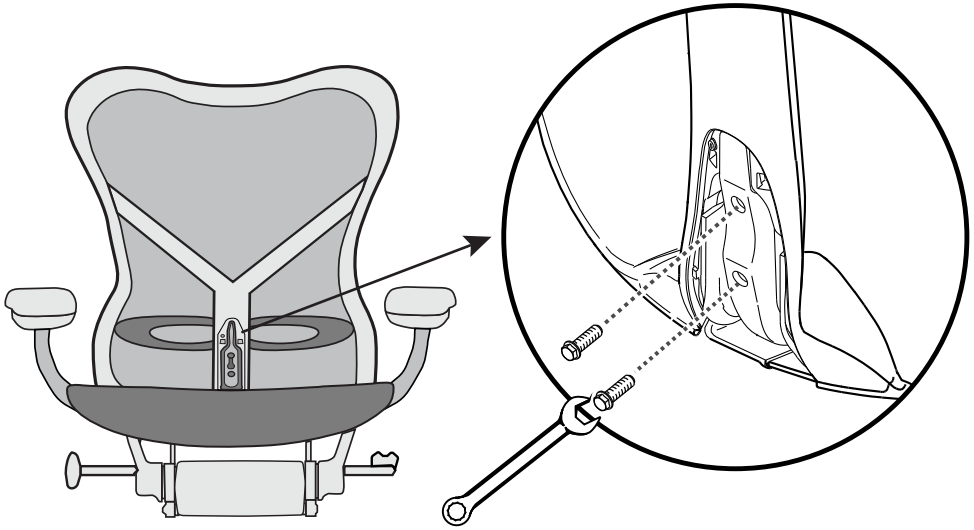

Step One

Place the **Chair Body** onto the **Cylinder**. Sit on the seat to lock it into place.

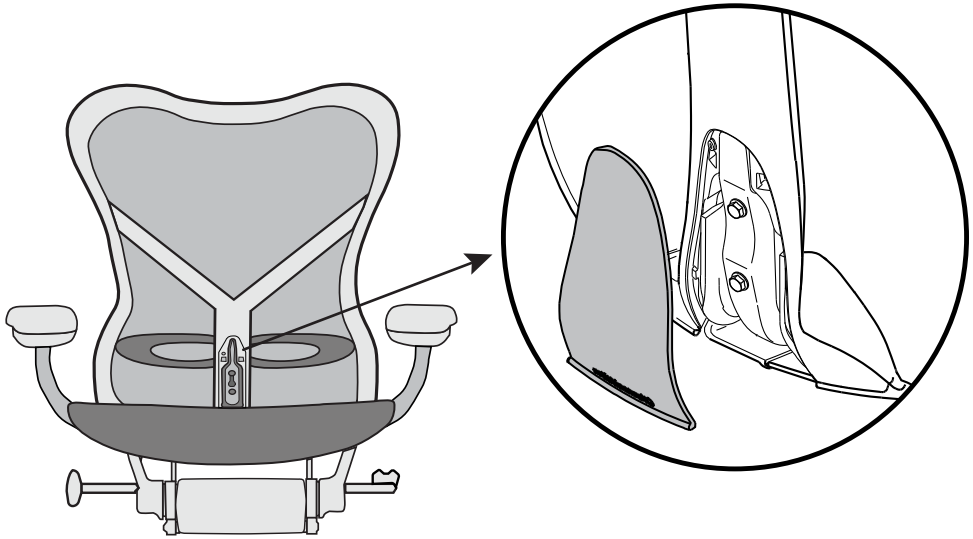

Step Two

Get up and turn the chair around. On the **Chair Body**, locate two holes in the lumbar area. Install the two provided **M10 bolts** by hand until finger tight. Using the provided wrench, tighten the bolts, careful not to overtighten.

Step Three

Place the **Access Cover** lower lip onto the rear edge of the chair back. Rotate the **Access Cover** and snap the top into place by hand until the surfaces are flush. That's all there is to it. Now you can enjoy your chair.
